2019 AWARD CATEGORIES

Master Electrician of the Year

Presented to an Electrical Contracting business that has shown a commitment to professionalism, quality and safety in the industry that stands them apart from their peers.

Legrand Apprentice of the Year

Seeks to recognise a well-rounded electrical apprentice, focusing on technical skills, educational aptitude, workplace contributions, health and safety compliance and teamwork.

Women in Contracting Award

Presented to an outstanding female in a management, leadership or support role within the electrical contracting industry. These women often provide a variety of functions within the business including sales, HR, administration, marketing, PR, finance and much more.

The Lance Cislowski Electrician of the Year Award

This award is presented to an Electrician who has shown a commitment to professionalism, quality, safety and the industry that stands them apart from their peers.

Residential Project of the Year

(electrical component only)

This award covers a single residential project in the domestic sector where the applicant's contract value is less than \$1 million. Judges are looking at the technical aspects of the project along with the businesses' commitment to safety, employee development and industry involvement.

Commercial Project of the Year

(electrical component only)

This award covers all commercial projects regardless of the applicant's contract value.

Industrial Project of the Year

(electrical component only)

This award covers all Industrial and Mining projects regardless of the applicant's contract value.

Energy Efficiency Project of the Year

This award covers all energy efficiency projects such as solar or wind regardless of the applicant's contract value.
